ACADEMIC & PROFESSIONAL PROFILE

Fourth-year Bachelor of Science in Information Technology (BSIT) student at Sorsogon State University – Bulan Campus with hands-on project experience in web and mobile application development. Proficient in TypeScript, React, React Native, Next.js, and Laravel REST APIs with MySQL and PostgreSQL databases. Seeking a Software Development Internship to contribute to production software, collaborate in team engineering workflows, and strengthen software engineering fundamentals.

TECHNICAL SKILLS & TOOLS

Languages	TypeScript, JavaScript, PHP, SQL, HTML5, CSS3
Frontend & Mobile	React, React Native (Expo), Next.js, Tailwind CSS
Backend & APIs	PHP, Laravel, RESTful APIs
Databases & Tools	MySQL, PostgreSQL, Git, GitHub, VS Code, Vercel

TECHNICAL PROJECTS & ACADEMIC PORTFOLIO

Labada — Laundry Service & Delivery Platform — Capstone · Mobile App [EAS Build]

Technologies: React Native, Expo, TypeScript, PHP, Laravel, MySQL

- Built a cross-platform mobile application supporting 4 user roles (Customers, Shop Owners, Delivery Riders, Administrators).
- Implemented real-time order tracking, delivery status updates, and in-app chat for active orders; verified EAS builds.

DevStash — Developer Resource Management Platform — Web App [Live] [GitHub]

Technologies: Next.js, React, TypeScript, Tailwind CSS, PostgreSQL

- Developed a developer bookmarking system to organize, tag, and search technical links with public guest and private user libraries.
- Designed database tables and implemented OAuth authentication for secure user logins.

FinanEase — Personal Finance & Budget Management System — Web App [Live] [GitHub]

Technologies: React, TypeScript, Tailwind CSS, PHP, Laravel, MySQL

- Created a responsive budget tracking dashboard featuring income and expense logging, category budgets, and spending charts.
- Built and integrated a decoupled Laravel RESTful API backend to securely manage financial records and user transactions.

Klinika — Healthcare Appointment & Clinic Operations Engine — Web App [Live] [GitHub]

Technologies: PHP, Laravel, Livewire, PostgreSQL, Docker, Tailwind CSS

- Engineered a concurrency-safe booking engine with atomic slot reservations using PostgreSQL row-level locks.
- Built an executive clinic KPI analytics dashboard tracking doctor utilization, specialty demand, and queue triage.

UNLABEL — Interactive Educational Website — Interactive Web [Live] [GitHub]

Technologies: Next.js, React, TypeScript, Tailwind CSS

- Designed an interactive educational website exploring gender stereotypes through visual storytelling, quizzes, and a pledge generator.
- Built responsive UI components and smooth web animations for an engaging learning experience.

EDUCATION

Bachelor of Science in Information Technology (BSIT) — Expected Graduation: 2027

Sorsogon State University – Bulan Campus · Bulan, Sorsogon, Philippines — Status: Ongoing (Regular)

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Web Systems & Technologies, Mobile Application Development, Software Engineering, Object-Oriented Programming
