ACADEMIC & PROFESSIONAL SUMMARY

Bachelor of Science in Information Technology (BSIT) student at Sorsogon State University – Bulan Campus with hands-on project experience in web and mobile application development. Experienced in building practical full-stack projects using React, React Native (Expo), Next.js, Laravel, TypeScript, and relational databases (MySQL, PostgreSQL). Comfortable connecting frontend interfaces with backend REST APIs, working with state management, and designing clear database schemas. Seeking a Software Development Internship where I can learn from experienced engineers, receive constructive code reviews, and contribute to real-world applications while strengthening software engineering fundamentals.

EDUCATION

Bachelor of Science in Information Technology (BSIT) — Expected Graduation: 2027
Sorsogon State University – Bulan Campus · Bulan, Sorsogon, Philippines — Status: Ongoing (Regular)

Academic Honors / GWA: *[e.g., Dean's Lister, 1st Sem / 2nd Sem / Cumulative GWA: 1.XX]*

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Web Systems & Technologies, Mobile Application Development, Software Engineering, Object-Oriented Programming, Networking Fundamentals

TECHNICAL SKILLS & TOOLS (PROJECT EXPERIENCE)

Programming Languages	TypeScript, JavaScript (ES6+), PHP, SQL, HTML5, CSS3
Frontend Frameworks	React, Next.js (App Router), React Native, Expo, Tailwind CSS, Zustand, Recharts
Backend & Architecture	Laravel, PHP, RESTful API Development, Laravel Sanctum, Laravel Reverb (WebSockets)
Databases & ORM	MySQL, PostgreSQL (Neon), Drizzle ORM, Relational Database Modeling
Authentication & Tools	Auth.js (NextAuth), Sanctum Token Authentication, Git, GitHub, VS Code, Vercel, AWS EC2

CAPSTONE & SELECTED PROJECTS

Labada | Laundry Service & Delivery Management Platform — Capstone Project

Technologies: React Native, Expo, TypeScript, PHP, Laravel, Sanctum, Reverb, MySQL

- Developed a full-stack mobile platform supporting 4 distinct user roles: Customers, Shop Owners, Delivery Riders, and System Administrators.
- Implemented real-time location and status notifications using **Laravel Reverb (WebSockets)** for active delivery tracking and order-scoped direct chat.
- Secured API communication using Laravel Sanctum multi-auth tokens and verified mobile builds on EAS (Expo Application Services).

DevStash | Developer Resource Management Platform — Full-Stack Web App

Technologies: Next.js (App Router), React, TypeScript, Tailwind CSS, Drizzle ORM, Neon Postgres, Auth.js

- Developed a developer resource management platform for saving, tagging, and categorizing useful technical links and documentation.
- Used **Drizzle ORM** to define relational tables and execute database queries on a serverless **Neon PostgreSQL** instance.
- Implemented public guest access modes alongside private authenticated personal libraries with OAuth integration.

SELECTED PROJECTS (CONTINUED)

FinanEase | Personal Finance & Budget Management System Full-Stack Web App

Technologies: React, TypeScript, Vite, Tailwind CSS, Recharts, PHP, Laravel, Sanctum, SQL

- Built a responsive personal budget management system featuring income/expense analytics, budget planning thresholds, and transaction ledgers.
- Implemented a decoupled backend REST API on Laravel with token-based authentication deployed on Render.
- Visualized monthly spending habits and cash-flow breakdowns with interactive charts using Recharts.

GIMATA | Fisheries Data Visualization Application & PWA Web Application / PWA

Technologies: React, TypeScript, Tailwind CSS, Leaflet, Recharts, Zustand, Vite, PWA

- Transformed coastal survey catch records from Bulan, Sorsogon into an interactive geospatial data visualization platform with Leaflet.
- Implemented species and seasonal filters, ecological summaries, and offline-ready installable Progressive Web App (PWA) capabilities.

UNLABEL | Interactive Educational Website Interactive Web Experience

Technologies: Next.js, React, TypeScript, Tailwind CSS, Three.js, GSAP, Motion

- Designed an educational storytelling website exploring gender stereotypes through interactive quiz challenges, data visualizer, and pledge generator.
- Leveraged Three.js and GSAP for performance-optimized hardware-accelerated animations and interactive visual components.

CERTIFICATIONS & CONTINUING EDUCATION

[Course / Certification Name 1] — *[e.g., Meta Front-End Developer / DICT Web Development]* *[e.g., 2026]*

Issuing Organization: [e.g., Coursera / DICT / freeCodeCamp / Cisco NetAcad] · Credential ID: [Optional / Insert ID]

[Course / Certification Name 2] — *[e.g., Responsive Web Design / Full-Stack Open]* *[e.g., 2025]*

Issuing Organization: [e.g., freeCodeCamp / Udemy / LinkedIn Learning]

SEMINARS, WORKSHOPS & CONFERENCES

- **[Seminar / Workshop Title 1]** — *[Topic / e.g., Cloud Computing & Modern Backend Architecture]* *[e.g., Nov 2025]*

Organizer: [e.g., GDG / Campus IT Summit / Sorsogon State University] · [Location / Online]

- **[Seminar / Workshop Title 2]** — *[Topic / e.g., Cybersecurity Fundamentals & Web App Security]* *[e.g., May 2025]*

Organizer: [e.g., DICT Region V / University College of Information and Communications Technology]

ORGANIZATIONS & LEADERSHIP

- **[Organization Name 1]** — *[e.g., Junior Philippine Computer Society (JPCS) / Campus IT Society]* *[e.g., 2023 – Present]*

Role: [e.g., Active Member / Committee Member / Technical Team] · Sorsogon State University
